

Slide Club Meeting #60

529 Laidlaw Blvd.

October 27, 1978

PRESENT: Drs. B.C. Johnston, L. Lu, R.W. Stark, H. Benediktsson, D. Owen,
W.S. Hwang, W.K. Chow

VISITING: Dr. M.J. Phillips

REGRETS: Dr. R. Banerjee, Dr. F.W. Orr

CONTRIBUTIONS

1 DR. D. BUNTINE

1. RB 10401/78 21 F wedge biopsies for
Stein-Levinthal syndrome.

DIAGNOSIS: Mature cystic teratoma with
thyroid element.

- 2
-
2. RB 10533/78 60 F 10 cm. partly cystic
ovarian tumor.

DIAGNOSIS: Malignant granulosa cell tumor
?anaplastic carcinoma.

3 DR. B. JOHNSTON

1. 5619/78 51 M six months history of fatigue,
weight loss, evanescent skin rash,
abdominal pain and hypertension.
10 cm. para-aortic retroperitoneal mass.

DIAGNOSIS: Retroperitoneal sclerosing lymphoma.

4 DRS. W.K. CHOW
AND L. LU

1. 32836 74 F bowel obstruction and ascites.

DIAGNOSIS: ?Metastatic adenocarcinoma.

- 5
-
2. 318/78 57 F obese lady found dead. Section
from thyroid.

DIAGNOSIS: Hashimoto's thyroiditis.

- 6
-
3. 8385/78 66 F enlarged thyroid for five years.

DIAGNOSIS: Hashimoto's thyroiditis.

7 DR. R.G. STARK

1. 8470/78 83 F tumor right quadriceps.

DIAGNOSIS: Malignant fibrous histiocytoma.

8 DR. H. BENEDIKTSSON

1. 18489/78 58 M superior mediastinal mass with myasthenia gravis

DIAGNOSIS: Malignant thymoma.

9 DR. F.W. ORR

1. Unlabelled blood film. 6 weeks M from North Eastern U.S. with anemia.

DIAGNOSIS: Babesiosis in sprague. Dawley rat infective agents: B. rodheini. Ref. Annals Int. Med. 88 263, 1978.

10 DR. D. OWEN

1. 2353/74 52 F recurrent rectal hemorrhage.

DIAGNOSIS: Post radiational colitis (had carcinoma of cervix).

2. 3403/78 15 M massive rectal hemorrhage.

DIAGNOSIS: Ulcerative colitis.

12 DR. W.S. HWANG

1. 845R/78 7 M recurrent mass on heel.

DIAGNOSIS: Juvenile aponeurotic fibroma.

13 D.R. R. BANERJEE

1. 5434/78 25M spermatic cord.

DIAGNOSIS: Leukemic infiltration of spermatic cord.

2. T12537 28 F endocervical polyp.

DIAGNOSIS: Microglandular hyperplasia of endocervix secondary to oral contraceptives.
